

Our daughter Kelcie has attended St. Peter's Lutheran School for ten years. We feel blessed that she has been in a learning environment where she can grow in her Christian faith, worship God as part of her school day and where she feels safe and truly cared for.

As we look back over the years, we have many wonderful memories of her teachers and classmates, chapel services and field trips. We are thankful for the teachers and staff at St. Peter's who have had such a close and caring relationship with Kelcie, people she has trusted and sought out when she needed guidance at school and with other challenges in her life.

Kelcie has enjoyed many opportunities to learn the qualities of Christian leadership and has participated in Speech Meets and events that have challenged her to be her best. She has a greater sense of confidence and pride in herself because of these skills and accomplishments.

We will soon watch Kelcie graduate from St. Peter's. We are so very proud of our daughter and know that she is academically ready to face the challenges of high school. More importantly, we know that she is spiritually ready to face the challenges ahead. We feel St. Peter's has played a vital part in making her the young lady she is and for that, we are thankful.

Jerry and Keri Becker
