

Our son John came to St. Peter's Lutheran School in the 5th grade. We had always sent our children to public school, but our local school district decision to go year round, coupled with the fact that John wasn't being challenged enough led us to St. Peter's. At the time we were looking for academic excellence and we have been very pleased with the level of work John has accomplished. But it is the spiritual and nurturing aspect of the school staff that has impressed us the most and has made the biggest difference in John's life. Not only has he learned a great deal about the Bible, but also his Christian character has been set on a path that he will follow the rest of his life. The faith he has developed in his four years at St. Peter's is the greatest gift of all to him and to our family. We will always have warm memories of our time here. May God continue to bless everyone at St. Peter's School.

John and Karen Drebing.
